MAX 25 BAR

MAX +80 °C

NITO® THE STRONGEST CONNECTION

Spray gun for industry

The NITO HEAVY DUTY Spray Gun is an exceptionally strong spray gun for use in environments where it may be subjected to rough treatment. This means workshops and production environments where the gun is exposed to shocks and impacts. The NITO Heavy Duty Spray Gun is a high-quality product that never fails.

Application:
For flushing and cleaning jobs in industry and trades requiring a robust gun that can withstand shocks and save water when in use
For water with or without soap solution, e.g. for rinsing, washing, flushing and soap dispensing
Infinitely adjustable dispersion, from a concentrated jet to a 60° spray
Dispersion can be adjusted using a tool
